

Report an image of the system displaying your full name after modifying the code at the main.c file.

Report your final main code and images of the results as well as the explanation requested in 3.a

Functions `HAL_UART_Transmit` let us send data from the nucleo board to a COM Port by using UART protocol

Function `HAL_UART_Receive` allow us to send data from the Serial Monitor we are using to the Nucleo Board, waits until it receives data and continue the execution.

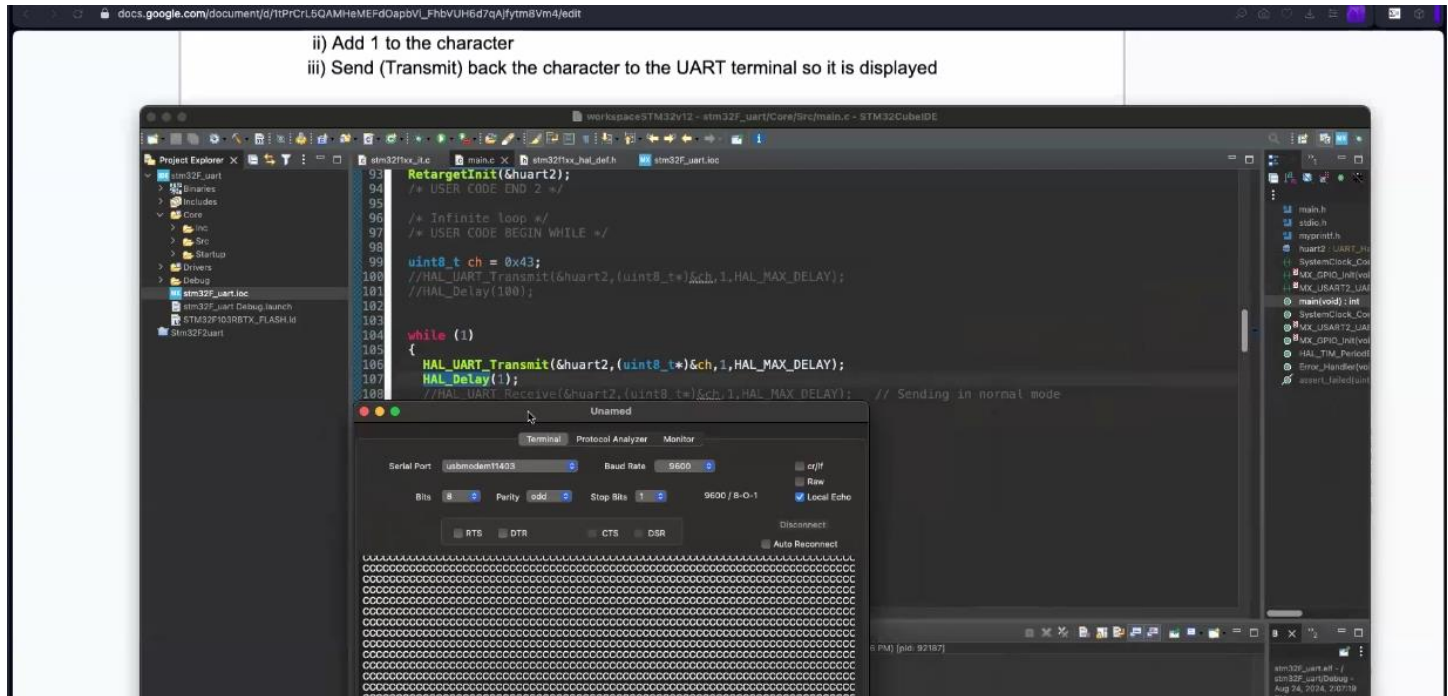

Report an image of the signal displayed by the oscilloscope. Mark in the

Image the 0 or 1 bits corresponding to the letter C

d. Report an image that shows the duration of a logic 1 (pulse) in seconds

illustrated by your professor. From this image demonstrate that the baudrate

is correct.

H01

- A. 7
- B. No
- C. 2
- D. 93
- E. 10

H02

- | | |
|----------|---|
| Parity A | 1 |
| Parity B | 0 |

H03

Parity

| 0 | 01010101 | 11 |

start bit stop bit

Package = 11 bit

H04

- A. 11
- B. 273
- C. Yes

H06

- Order
- 1. A
 - 2. D
 - 3. E
 - 4. B
 - 5. C

H05

- A. 10 bits
- B. 1042 μ s
